

# Kelfield.<sup>®</sup>

Polish Center for Agrophotovoltaics<sup>®</sup>

## ■ WHAT WE DO

Our goal is to diversify local agricultural activities through innovative solutions that combine modern agriculture and energy transition trends while carefully protecting the environment and farming activities. We focus our development on:

- Agrophotovoltaics (APV)
- Wind Turbines
- PPA Agreements
- Energy Storage
- Carbon credits

## ■ WHO WE ARE

The Kelfield Group is a family run company in northern Poland. We currently develop more than 100 MW of APV and 70 MW of Wind Projects within our portfolio. We are actively searching for investors, PPA seekers and suppliers, who want to collaborate with us, to revolutionise renewable development in Poland.
