Become a Sponsor of AgriVoltaics2023

Since its launch in 2020, the **AgriVoltaics Conference** has established itself as the world's leading conference in this broad and pioneering field of agrivoltaics. **AgriVoltaics2023**, the fourth edition of our conference, will take place April 14-16, 2023 both online and on-site in Daegu, South Korea — a country where the agrivoltaics market is as dynamic as in many regions all over the globe.

As always, conference will offer a diverse and comprehensive program, featuring up-to-date findings and discussions on the most recent developments of agrivoltaics. More than 500 participants are expected to attend on-site or online.

AgriVoltaics2023 will cover all aspects from science to application, reflecting the wide thematic range of the experts that will attend, from crop science and agronomy to hydrology, solar energy as well as systemic aspects and socio-economic studies. The program will be comprised of high-level invited keynote talks, best practices, and scientific presentations chosen from an extensive reviewing process. In addition, sponsors will have the opportunity to be highlighted in a dedicated industry session.

Show who you are!

Show who you are and secure your sponsorship or exhibition advantages today!

Sponsoring the AgriVoltaics2023 Conference is an ideal way to give your company visibility and highlight your activities and ideas as a strong and important player in the future-oriented and growing field of agrivoltaics. Sponsors will be highly visible before, during and after the conference both on the conference website, the virtual conference platform and on promotional material. If your focus is on local presence during the event, the exhibitor package will perfectly fit your needs.

Your benefits

- Maximize your company's visibility on-site, on the conference website and on the virtual conference platform Sponsoring
- Take advantage of new ways of networking to show your latest research, innovations and services
- Profit from the opportunity to communicate with a global and future-oriented audience
- Develop contacts with ambitious young scientists in the field. Providing an excellent base for your human resources development, AgriVoltaics2023 will offer high-level scientific exchange and great networking opportunities for:
 - ◆ Researchers from PV and agriculture (including biology and hydrology) and those working "in between";
 - ◆ EPC Companies, manufacturers of PV module, mounting systems and tracker tech, renewable energy producers, as well as farm machinery equipment providers and seed producers;
 - ◆ Organic farming associations, agricultural federations and similar stakeholder groups;
 - ◆ And experts from politics and finance open for innovative and futureoriented ideas!

We look forward to working with you!

If you have any questions, please contact our sponsoring expert Anastasia Segovia at segovia@conexio-pse.de
